The PTO did not raceive the following listed Items(s) Foks

NOTE: 37 C.F.R. 1.986):

- Each U.S. patent listed in an information disclosure statement must be identified by inventor, patent number, and leave date.
- (2) Each U.S. patent application publication listed in an information disclosure statement shall be identified by applicant, patent application publication number, and publication data.
- (3) Each U.S. application listed in an information disclosure statement must be identified by the inventor, application number, and filling date.
- (4) Each foreign patent or published foreign patent application listed in an information disclosure statement must be identified by the country or patent office which issued the patent or published the application, an appropriate document number, and the publication date indicated on the patent or published application.
- (5) Each publication listed in an information disclosure statement must be identified by publisher, author \$f any), title, relevent pages of the publication, data, and place of publication.

WARNING: No extension of time can be had under 37 C.F.R. § 1.138 (a) or (b) for filing an IDS, 37 C.F.R. § 1.97(\$).

NOTE: The "filing date of a national application" under 37 C.F.R. § 1.97(b) has two possible meanings. Where the filing is a direct one to the United States Patent & Trademark Office, the filing is defined in 37 C.F.R. § 1.53(b) as "the date on which: (1) A specification containing a description pursuent to § 1.71 and at least one claim pursuent to § 1.75; and (2) any drawing required by § 1.81(b), are filed in the Patent and Trademark Office in the name of the actual inventor or inventors as required by § 1.41." 37 C.F.R. § 1.97(b)(1). On the other hand, an international application that enters the national stage occurs when the applicant has filed the documents and fees required by 35 U.S.C. § 371(c) within the periods set forth in § 1.494 or § 1.486. 35 U.S.C. § 371(c) requires the filing of the following: (1) the basic national fee; (2) a copy of the international application, unless already sent by the international Bureau, and optionally an English translation if filed in another language; and, also optionally (3) amendments under PCT Article 19, with a translation into English if made in another language; (4) an oath or declaration; and (5) a translation into English of any annames to the international preliminary examination report, if such annames were made in another language. The optional items must be submitted later, with surcharges. 37 C.F.R. § 1.97(b)(2).

IDENTIFICATION OF TIME OF FILING THE ACCOMPANYING INFORMATION DISCLOSURE STATEMENT

The information disclosure statement submitted herewith is being filed within three months of the filing date of the application or date of entry into the national stage of an international application or before the mailing date of a first Office action on the merits, whichever event occurs last. 37 C.F.R. § 1.97(b),

- NOTE: "No certification or fee is due when the filling is made within the above time period. It is advisable to ensure that no Office action has been malled if the disclosure statement is delayed until after three months from filling."
- NOTE: "An information disclosure statement will be considered to have been filed on the day it was received in the Office, or on an earlier date of a mailing if accompanied by a property executed certificate of mailing under 37 C.F.R. 1.8, or Express Mail certificate under 37 C.F.R. 1.10. An Office action is mailed on the date indicated in the Office action." Notice of April 20, 1992 (1138 O.G. 37-41, 36). See also § 608, M.P.E.P., 8th Edition.
- NOTE: "The term 'nestanel application' includes continuing applications (continuations, divisions, continuations-in-part) so three-months will be measured from the actual filing date of an application as opposed judge to the effective date of a continuing application." Notice of April 20, 1988 (1138 O.G. 37-41, 38.

NOTE: "An action on the merite means an action which treats the patentability of the claims in an application, as opposed to only formal or procedural requirements. An action on the merite would, for example, contain a rejection or indication of allowability of a claim or claims rather than just a restriction requirements (57 C.F.R. 1.142) or just a requirement for additional fees to have a claim considered (57 C.F.R. 1.18). Thus, if an application was filed on Jan. 1 and the first Office action on the merite was not mailed until six months later on July 1, the examiner would be required to consider any proper information disclosure statement filed prior to July 1." Notice of April 20, 1962 (1136 O.G. 37-41, 35).

WARMING: "A petition for suspension of action to allow applicant time to submit an information disclosure statement will be denied as failing to present good and sufficient reasons, since 37 C.F.R. § 1.97 provides adequate recourse for the timely submission of prior art for consideration by the examiner." Notice of July 6, 1992 (1141 O.G. 63). But see § 103(b) and (c), limited suspension of action in a continued prosecution application (CPA) filed under § 1.63(d) and in a request for continued examination (FICE) under § 1.114.
